TV PILOT OUTLINE

Private Eyes Luke Flow and Ben Trickle are forced to resume their roles as Detectives on an NYPD elite task force after a series of cases gone wrong using their "special skills" have landed them in hot water with the Chief of Police. Chief feels that their skills would be an asset for the NYPD under the supervision of Detective Riley Peters. Riley, Ben and Luke are good friends, but from a professional standpoint Luke and Riley drive each other nuts.

The three detectives are joined by Riley's best friend and medical examiner Dr. Matt Khoury on this task force as well as Crime Analyst Chase Coleman, Detective Sarah Paulson and Investigative Psychologist Dr. Rohan Kapoor.

On their first day working together, they are assigned to resume investigating the case Ben and Luke were on looking into who's pushing the candy fentanyl around town. They find out the dead suspect from the warehouse is linked to ruthless mastermind criminal and Irish Gang Leader Finn Kelly. Luke had previous run-ins with Finn back when he was on the force in LA.

As the investigation continues, the team learns that Finn is involved with Sicilian mob boss Gia Morris in human trafficking, arms trafficking and money laundering. They also learn Finn is creating crimes and clues involving Shakespearean plays in order to stay two steps ahead and steer the team in the direction he wants them to go. The team also believes he's targeting Luke, missing deciphering two clues that actually indicate that Finn is after Riley.

The team is dealing with a ton of personal issues in this episode from Luke's emotionally unavailable and hard-ass father Admiral Flow showing up at the precinct to Chief Allison Scott and Ben's secret relationship and Riley's pent up frustration with constantly getting in trouble for things Luke and Ben have done. After fighting with Luke in the parking lot of a warehouse they've been led to by Finn about what's bugging her, Riley is not focused on the task at hand and ends up getting shot in the neck by Finn. The team is now rushing to save her life.

Luke Flow is a hot shot ladies man and Private Investigator who's unorthodox ways often land him in hot water.

LUKE MAIN CHARACTER

Luke Flow, a former Navy SEAL and decorated LAPD detective, grew up in Southern California with his mother Claire, a nurse, and his father Jonathan, an Admiral in the Navy. After high school, Luke enlisted in the SEALs where he rose to the rank of Lieutenant in four years. He then left the military and joined the Los Angeles Police Department.

He quickly rose to the rank of Detective due to his superior training and mettle earned during his time as a SEAL. During a case, Luke's partner was shot and killed by an assailant - resulting in PTSD that has stuck with him ever since. He then moved to New York where he met his best friend Detective Ben Trickle - who also had left the force. The two founded their own private investigation agency. After a series of missteps using their "special skills", Luke and Ben are coerced into joining an elite NYPD task force (led by their friend Detective Riley Peters) or face the undesirable alternative.

Luke has commitment issues, is emotionally closed off and often described as a ladies man. What may be an attempt at self-protection due to his Navy Admiral father being quite hard on him when it comes to expectations combined with being emotionally unavailable to him and his Mom.

Luke will need to deal with his inner baggage wreaking havoc on his personal and professional life while fighting the high crime that is running rampant and hurting people he cares about the most.

BEN

MAIN CHARACTER

Both of them are highly skilled and experienced investigators, but their cases often lead to mishaps when utilizing their “special skills”. It's not just Ben's professional career that gives him insight into the criminal world —his family background is also heavily involved with law enforcement. His parents are both career cops and his younger sister Lizzy has always wanted to become a police officer too. Lizzy is supposed to be in school for this but little does Ben know she's dropped out after realizing the system is broken. She's taken up an outside the system approach of dealing with criminals that will test his loyalty to his job vs family.

Although Ben is sarcastic and appears gruff on the outside, he is a huge teddy bear of a man who will do anything for those closest to him. In addition to all this, Ben is secretly dating the Chief of Police for NYC (Allison Scott). It's been a tricky romance so far, as both need to be careful about having their relationship made public due to their respective positions in the police force. But it hasn't stopped them from forming a strong connection despite its obstacles.

Leaf is a street smart, confidential informant with a quick wit sense of humour and an unparalleled love for his Mom and sister.

LEAF

SUPPORTING CHARACTER

Cornelius Bartholomew Acharbald Lopez the Third, otherwise known as "Leaf" is a confidential informant for NYPD's elite task force, led by Detective Riley Peters. His nickname stems from his previous professional experience while working a case with Ben and Luke. He is of Latin and Indian heritage. Leaf has an easy smile and a sarcastic sense of humor that belies his true street-smart attitude. His sense of humor allows him to connect with people from all walks of life - from cops on the beat to hardened criminals alike. His quips often lighten tense moments between people or provide some levity in otherwise dark situations.

Leaf's knowledge of crime goes far beyond what he reads in books or hears on the streets. Growing up with his father as a low level drug dealer gave him insight into both the motivations of criminals and police officers alike. Despite his father being a criminal his mom was a role model as a hard working single parent and a nurse at the hospital.

One night, Leaf was walking past an alleyway when he heard a woman screaming for help. When he looked inside the alleyway, he saw Finn Kelly beating her severely while another group of men stood around them laughing hysterically as they filmed it all on their phones. He called the police as he was no match against the gang of them and it pained him severely he couldn't stop it himself.

With that experience and Finn now threatening his Mom and sister means he has a personal stake in taking Finn and Gia down. He is well-versed in obtaining information and gathering evidence and is an instrumental part of the team. His quick wit makes him one step ahead of many opponents. Leaf is apt at connecting clues that may have been previously overlooked. He also has an innate ability to read people and can quickly size up any situation or individual he finds himself in without giving away too much information.

Finn Kelly is a former dishonourably discharged Navy Seal turned ruthless criminal.

FINN SUPPORTING CHARACTER

Finn Kelly is a master manipulator and psychotic criminal. He has a past history with one of the elite detectives and a mysterious hidden past with another one of the elite team. Finn, once a Navy Seal performing black ops, was dishonorably discharged after he switched sides on a mission and left four of his team members to die.

He constantly seeks ways to stay one step ahead of his competition. To do this, Finn has resorted to using Shakespeare's works as blueprints for his crimes and leaving behind subtle clues that only the most astute can decipher. His choice of Shakespeare as inspiration reflects his own mischievousness as well as an admiration for the timeless plays and stories of the celebrated playwright.

Using themes such as love, hate, loyalty and betrayal in Shakespeare's writing allows Finn to create intricate and unpredictable crime scenes that keep both law enforcement and criminals guessing his next move. By weaving cleverly chosen characters, situations, dialogue and action into each crime, Finn stays on top of every situation with finesse. He knows exactly how to use Shakespeare's storylines to win in any situation - be it outsmarting his rivals or playing mind games with detectives from the police force.

Additionally, Finn also uses Jessica Ellis to manipulate Detective Luke Flow by pretending to date her. His ultimate goal however is power. He seemingly has no remorse for any of his actions and will do anything to get what he wants. Even though Finn appears as an unstoppable force, he has been known to have an Achilles heel when it comes to the women in his life. His secret marriage with Sicilian Mob Boss Gia Morris shows that there is more than meets the eye when it comes down to this master manipulator's inner workings.

Gia Morris is a merciless and cunning Sicilian mob boss with a past that haunts her.

GIA

SUPPORTING CHARACTER

Gia Morris is the thirty-eight-year-old head of the Sicilian mob, a position she inherited a year ago following her father's death. She rules with a commanding presence and unquestioned authority. She is determined, driven by her insatiable hunger for power and financial gain. Gia is married to Finn Kelly, an emotionally unstable psychopath who has become obsessed with seeking revenge on the NYPD's elite task force team. Despite his violent tendencies, Gia tries to make sure he doesn't cause too much trouble as the extra heat from law enforcement is bad for business.

Her half-brother Archer Rossi is also a criminal, but his strong moral convictions often stand in her way when it comes to her human trafficking operations. He frequently puts himself at risk to save innocent victims and always speaks up against Gia whenever she suggests illegal activities. His rebellious nature has caused tension between them, as Gia sees him as an obstacle between her and power. She has no qualms about using any means necessary to achieve her objectives, even if it means exploiting Archer.

Gia's resources are vast and her connections formidable; there aren't many people or items that she can't acquire through illegal channels when needed. Her drive to succeed has earned her respect among criminals and law enforcement alike - something that she takes great pride in. Despite this level of success, Gia's past will always haunt her; especially when those closest to her are threatened by the same type of darkness that once consumed her own life.

Archer Rossi is a criminal with a heart and Sicilian Mob Boss Gia Morris's half brother.

ARCHER

SUPPORTING CHARACTER

Archer Rossi is a master hacker and criminal with connections to some of the world's most dangerous criminals and hackers groups. Archer has been able to use his skills for good when needed. His sister often refers to him as a modern day Robin Hood.

During his childhood he was bullied relentlessly, leading him to stand up for those who are unable to fight back against oppression and injustice. To protect himself from physical harm, he learned to box and fight with quick reflexes and weapons crafted from scavenged materials found around his neighborhood.

He's now on a mission to stop Finn Kelly from gaining revenge on the NYPD's elite task force team; his half-sister is married to this psychotic criminal and he won't stand by whilst innocent people suffer due to their actions. In his desire to stand up for those who can't fight back, he also finds himself often getting in the way of his sister's human trafficking operations.

Despite her status as a merciless mob boss married to a psychotic criminal, Archer still looks out for her - especially since she took over the mob after her father's death.

When he isn't using his hacking abilities to bring criminals to justice or help a vulnerable individual out of a jam, he often puts himself at risk. From infiltrating sophisticated networks and stealing confidential data to breaking into heavily monitored facilities and taking down powerful enemies - Archer is not afraid to use his talents in whatever way necessary to help those who can't help themselves. With an unparalleled knowledge of the cyber underworld, he can quickly identify weaknesses that even the most skilled security expert might miss.
